

geoproc/curvature/curvature.hpp

```
graph BT; Gauss[geoproc/curvature/Gauss.cpp] --> Header[geoproc/curvature/curvature.hpp]; Mean[geoproc/curvature/mean.cpp] --> Header;
```

The diagram illustrates a header file structure. At the top is a gray box labeled 'geoproc/curvature/curvature.hpp'. Below it are two white boxes: 'geoproc/curvature/Gauss.cpp' on the left and 'geoproc/curvature/mean.cpp' on the right. Blue arrows point from each of these two boxes up to the header file box, indicating that both source files include the header.

geoproc/curvature/Gauss.cpp
